

Fumex FA140B-2 filter complete with:

**Construction:**

Beverage board frame - .025"  
50 deep pleats w/ inner and outer pleat lock  
"Easy-Seal" connection

**Specifications:**

Efficiency – 99% @ 1 micron  
30ft<sup>2</sup> surface area

**Installation:**

Replaces existing dust-bag and hold-down bracket  
No additional components or tools required

**Benefits:**

The new high-capacity filter design slows the velocity of the inlet air eliminating "filter-blinding".

Dimpled deep-pleat design maximizes filter loading, greatly enhancing filter life and efficiency.

Clean design improves particulate containment and reduces operator exposure to captured particulates.

Terms: Net 30 days w/ approved credit
